

CROSSROADS

www.crossroads-canada.com

Here at Crossroads, we care about our Earth. We always try to use the most comfortable, best fitting and most environmentally friendly materials possible. That's why we use...

BAMBOO!

Bamboo is an amazing material with numerous advantages over other materials currently used to create clothing. It's naturally antibacterial and hypoallergenic. This means it will get rid of any stinky foot odours, and it won't irritate your feet! Let's not forget, this stretchy material is softer than the softest cotton.

Bamboo grows extremely tall without pesticides. This is great for our planet and the farmers who grow it. It can grow up to 4 feet per day!

Another great benefit of bamboo is that it doesn't have to be bleached with harmful chlorine in order to be dyed. We dye the fabric without the use of harsh chemicals, and use methods which need less water than conventional dyeing methods.

Now you know why we use bamboo! It's great for the environment, but just as important, it feels great next to your skin. Bamboo is just the logical choice for our high quality products.

Making good decisions.

We named our clothing company Crossroads because it suits our company mission so well. Crossroads defined means a time at which major changes occur or major decisions must be made.

You see, the key word is change. Right now much of our generation seems to take and take when so much giving is needed. Each and every one of us has a special talent that could be used to help someone else, but most of us are all so busy participating in the rat-race of life that we forget. It is time we put the brakes on. Smell the roses. Make a change for the better.

We at Crossroads have come to our "CROSSROAD" and have decided to make it our responsibility to help the less fortunate.

How you ask? With every pair of socks purchased at our retail partner locations, we will donate one pair of socks to help the homeless in your area.

We are also donating 100% of the profits of the sale of certain accessories such as hand made bracelets and wallets to help build a school for the disabled in Peru.

Have you reached your crossroad? Use your talents today and do something good for someone else.

Making good decisions.
